MOULD CLEANER TOOL CLEANER/DEGREASER

MOULD CLEANER is a powerful solvent blend, which has been developed to remove a wide range of soiling from mould tools, extrusion dies and other metal surfaces.

APPLICATIONS

The powerful solvent will remove numerous types of soiling, including:

- * Greases
- * Oils
- * Silicones

The special solvent blend permits use on hot production tooling without excessive solvent loss by evaporation.

After cleaning, any residual solvent will evaporate completely to leave the surface clean and dry.

Apply directly onto the soiling and wipe away. For stubborn deposits, allow the solvent to penetrate thoroughly before wiping the surface clean.

TECHNICAL DATA

Appearance	: Clear, colourless liquid
Odour	: Citrus
SG @ 25°C	: 0.653
Pressure @ 25°C	: 4 Bar
Discharge rate	: 1.7g/sec
Solubility	: Soluble in most organic solvents, insoluble in water
Flammability	: Classified as extremely flammable under current EC Regulations
Packaging	: 400ml aerosol (12 per carton). Also available in non-aerosol packed in 5 litres (25 litres upon request)

STORAGE

The product may be stored at normal ambient temperatures and has a shelf life of not less than 36 months with correct storage. Aerosols should always be stored below 50°C, away from direct heat and naked flame.

HEALTH AND SAFETY

Health and Safety sheet available separately.

TECHNICAL SERVICE

Ambersil provides a technical support service and maintains a constant programme of research and development. We are able to assist customers by specific product development to meet particular requirements.
