

## 1. General description

MOULD PROTECTIVE has been specially formulated for application to mould surfaces after their use to remove any surface moisture and to protect the mould against corrosion during storage.

## 2. Features

- Does not contain silicones.
- Temporary conservation of metal parts during storage.
- Protects metals and alloys.
- Displaces and seals out water and moisture.
- Safe on all metal surfaces, does not stain.
- Safe on most rubbers, plastics and coatings. Test on sensitive or stressed materials before use.
- Easily moulded off.

## 3. Applications

- All injection mould tools, blow mould tools, extrusion dies and metal components requiring corrosion protection.

## 4. Directions

- Shake well before use.
- Stir or mix bulk products well before use.
- Repeat frequently during the application.
- Use only with adequate ventilation.
- Apply to a clean, dry surface.
- Clean the aerosol valve by turning the can upside down and spraying until only propellant escapes.
- **A safety data sheet (MSDS) according to EC Regulation N° 1907/2006 Art.31 and amendments is available for all CRC products.**

## 5. Typical product data (without propellant)

|                                      |                 |
|--------------------------------------|-----------------|
| Color                                | Yellow.         |
| Odor                                 | Solvent.        |
| Density                              | 0.740 (@ 20°C). |
| Flash Point                          | - 4 °C          |
| salt spray resistance active product | 100 h           |

Drying time active product  
Water separability  
(ASTM D 1401)

cont. film: 10 min  
NaCl displaced

## 6. Packaging

|         |           |              |
|---------|-----------|--------------|
| Aerosol | 12x400 ML | Ref. : 31545 |
| Bulk    | 200 L     | Ref. : 31691 |

All statements in this publication are based on service experience and/or laboratory testing. Because of the wide variety of equipment, conditions of use and the unpredictable human factors involved, we recommend that our products are tested on-the-job prior to use. All information is given in good faith but without warranty neither expressed nor implied. This Technical Data Sheet may already have been revised as a result of a change in legislation, availability of components or newly acquired experiences. The latest and only valid version of this Technical Data Sheet will be sent to you upon simple request or can be found on our website: [www.crcind.com](http://www.crcind.com) We recommend that you register on our website for this product, thus enabling you to automatically receive any future updates.
